Women's health has long been a concern for WHO, but today it has become an urgent priority. Despite considerable progress in the past decades, societies continue to fail to meet the health care needs of women at key moments of their lives, particularly in their adolescent

years and in older age, say a new report by the World Health Organization (WHO). Women and health: today's evidence tomorrow's agenda. The World Health Organisation says women are being denied access to health care at key moments of their lives, particularly in their adolescent years and in older age. In a new report on Women and Health, WHO says although, women provide the bulk of health care services at home and community level, in many countries, the health care system continues to fail to address their specific health needs throughout their lives. The seminar provides the latest and most comprehensive evidence available to date on women's specific health needs and challenges over their life course, from birth to older age. Students participated with great interest and posed relevant questions to her.

INTERNAL COMPLAINTS COMMITTEE (ICC)

In response to the Vishaka Judgment passed by the Supreme Court in 1997, the University of Mumbai set up the 'University Women Development Cell (UWDC)' in 2001 with the key purpose of making the University a gender-sensitive space. The University also directed all its affiliated colleges to set up a 'Women Development Cell' at college level.

In compliance of this directive of the University, the Women Development Cell of G. M. Vedak Institute of Technology (GMVIT), was set up in the year 2017 under the chairmanship of Ms. (Prof.) Kadambani Ritesh Metha. It is an active committee comprising of staff members and students of GMVIT, and functions with an aim to prevent sexual harassment, promote well-being of all the female students and staff members and create a gender sensitized community within campus as well as in the society.

According to the Supreme Court of India, the following constitutes sexual harassment:

- Physical contact and advances
- A demand or request for sexual favors
- Sexually colored remarks
- Showing pornography

Date: 16th April 2020

Venue/ Mode : Online Google meet

Objectives of Program:

1. To sensitize the GMVIT College of Engineering community
2. To motivate girls students & Faculties and to create health awareness

Seminar was organized at GMVIT. Mrs. Shivkanti Gawali from Mangaon conducted sessions for all students, teaching and non-teaching faculties of the college through google meet. It was a very enriching and beneficial session as she gave tips and motivated them to take up jobs after completion of the course to be empowered and successful in a highly competitive world. Women excel in all fields including space exploration and rocket science. Women play a vital role in economic development of the country and their contribution is nothing short of their male counterparts. However there are still several issues and problems that women face today. Sometimes, they are not treated equally in their workplace and are considered as inferior to their male co-workers. In some cases they do not get the same benefits as that of a male employee. The major issues and problems that women face in their work places includes unequal pay, security, sexual harassment, lack of proper family support, deficient maternity leave, etc. Students participated with great interest and posed relevant questions to her.

Problems Faced by Women at Workplace

1. Sexual Harassment
2. Physical contact and advances
3. Showing pornography
4. A demand or request for sexual favors
5. Unequal Pay
6. Lack of Family Support
7. Poor Security
8. Insufficient Maternity Leaves

The event took place in the presence of Dr.D.N Jaiswal, Principal GMVIT, Women empowerment cell members, IUC Members Committee chairman Prof. S.B.More had

INTERNAL COMPLAINTS COMMITTEE (ICC)

In response to the *Vishaka Judgment* passed by the Supreme Court in 1997, the University of Mumbai set up the 'University Women Development Cell (UWDC)' in 2001 with the key purpose of making the University a gender-sensitive space. The University also directed all its affiliated colleges to set up a 'Women Development Cell' at college level.

In compliance of this directive of the University, the Women Development Cell of G. M. Vedak Institute of Technology (GMVIT), was set up in the year 2017 under the chairmanship of Ms. (Prof.) Kadambari Ritesh Metha. It is an active committee comprising of staff members and students of GMVIT, and functions with an aim to prevent sexual harassment, promote well-being of all the female students and staff members and create a gender sensitized community within campus as well as in the society.

According to the Supreme Court of India, the following constitutes sexual harassment:

- Physical contact and advances
- A demand or request for sexual favors
- Sexually colored remarks
- Showing pornography
- Any other unwelcome physical, verbal, or non-verbal conduct of sexual nature.

Report on Gender equality & empowerment of women

Program Name : Gender equality & empowerment of women
Organized by : Women development cell
Venue : G. M. Vedak Institute of Technology, Tala.
Dated on : 30th April 2019

Gender Equality is one of the severe issues in our current modern society. It refers to the equality of responsibilities, rights, and opportunities for females and males. Women, as well as girls, still fall behind the men and boys on the fundamental aspects globally.

It is essential to maintain gender equality for global development as well. Till now, women are still incapable of contributing effectively, and in fact, they don't recognize their complete potential.

Gender Equality and its importance:

Although our spiritual beliefs consider females as a deity, we fail to identify her as a human first. Women still understated in the positions of decision-making in different companies. Several studies show that there are below 1/3rd women in the world that occupy the ranks of senior management.

By offering gender equality in areas of health services, education, job, and involvement in administrative and monetary decision-making practices will ultimately benefit in attaining the economic sustainability overall. Numerous global organizations emphasize the significance of gender equality as a motivation for resolving several demographic, economic, and other issues.

Conclusion:

Now, positive growth can be seen in the region of gender equality (comprising the equal right to girls and boys for primary education). But, still, there are some parts of the world in which the girls and women are continuing to suffer from violence and discrimination. There is a definite necessity to make our legal and regulatory framework stronger for fighting the deep-embedded practice of gender inequality. We hope the entire world recognizes the efforts of men and women equally soon in our modern society.

This program is organised at Tala taluka main market area and Tala ST Bus stop by G. M. Vedak Institute of Technology, Tala, under the Women development cell to create the awareness about the gender equality and women empowerment.

It was successfully conducted under the guidance of the college principal, Dr. D. N. Jaiswal sir.

महोदय,

२०१९ च्या महाप्रलयकारी महापूराने घातलेल्या दैमानात ४० वर्षांपुर्वीची शाळा लयास गेली. तीन गावच्या ३२५ विद्यार्थ्यांच्या कौटुंबिक हानी बरोबरच त्यांचे शैक्षणिक विश्व संपले आहे. विमुक्तल्यांचे शैक्षणिक भविष्य अंधारमय झालेले असताना आपण एक आशेचा किरण दाखवला तुमची लाख मोलाची मदत शाळा नव्याने पुन्हा उभा करण्यासाठी अविस्मरणीय आहे.

माणुसकीची ओढ असलेली तुमच्यासारखी तेव परंपरा आम्हाला भेटली हे आमचे परमभाग्य. तुमच्या दार्तुत्वाला, कर्तुत्वाला आमचे त्रिवार वंदन.

VOTING AWARENESS

We people of India. One of the upcoming superpowers country is a free, secular, and a lawfull country. We people are free to live our lives with our own dreams and ways, no enforcements. That is we are the rulers of our own fates and destinies. This all came to be possible because we are a democratic country. "Democracy" the word contains just eight simple alphabets of English language but are much powerfull than its pronunciation. The meaning of true democracy is " common citizens are given their rights to elect their ruler, who will then govern the whole system and the country as well".

Democracy, usually tends that the government is all by the people, to the people and for the people. But we are here in an era of a lots of dirty politics, corruption, declination of education & medical facilities, etc. So the question arises who's responsible for all this declination around us in our country, in a mother land. Is it them politicians? Is it teachers or is it doctors? No, the only responsible person behind all this is we, we have the power to elect, we have power to choose, we have our options, we have our future in our hands, we have everything what we want in our fingertips. We have our precious "votes". One and, each and every vote as well as voter can set our future is a bright side.

But people of our generations thinks our responsibility of voting as a burden. They are so busy with their life that they just vote to them who are even not capable of governing a stall. Just an illiterate candidate with all his man and financial power. Even we people sell our votes for some money just because we are poor and money can help us feed our belly. But if we elect a good governing body we can feed our generations with all that what we never got.

Finally we have our ~~power~~ and our choices that what we want & what we get. ~~so the power to change~~ our future is within ourselves.

Report on Road Safety Awareness Program

Programme Name : Road Safety Awareness
Organized by : Applied Science and Humanities Department
Venue : G.M.Vedak Institute of Technology, Tala.
Dated on : 29/08/2019

A Road Safety Awareness program was organized at our college premises on 29/08/2019. The dignitaries who shared the session were the Mr. Suresh Gengaje Police Inspector, Tala. The session was very useful for students like us and he was focusing on the safety measures to be followed while riding.

The program was started with felicitation of guest, welcome address and introduction of guest given by Head of Applied Science & Humanities Department Miss R.B. Ghuge madam. Our honourable Principal Dr. D. N. Jaiswal sir had addressed to students and they shared importance of this program. The speech delivered by the Mr. Suresh Gengaje was very informative and he provoked the undeniable truth that "each one's safety is in their own hands" as well on the importance of how precious each one's life is.

Mr. Suresh Gengaje mainly focus on several measures have been undertaken by the students for the safety of the travellers on road as

- ❖ Seat belt wearing is an important rule for the people traveling in the front seat of the four wheeled vehicles. Heavy penalties have been levied in certain states for the people who violate the rule. This is a major safety measure taken by the government. The wearing of the seat belt reduces the risk of major injury if accident happens and surveys have proved the fact.
- ❖ Two wheeled vehicle drivers have to wear helmets and failing to do so can lead to heavy penalty. Measures are taken by the government for the benefit of the people.
- ❖ Use of cell phone while driving is prohibited. But hardly people try to follow the rule sometimes. To prevent this, preventive measures like fine payment has been levied on the citizens who are found driving and talking on the mobile simultaneously.
- ❖ Red light jumping and no lane driving is another hazard in maintaining road discipline. This is the reason why the government has taken the measure of penalty payment of red light jumpers.
- ❖ Over speeding also leads to punishment and many people end up paying fine. The students were very much enlightened by his motivating speech because at this age we ride for fun.

CESA Arranges Blood Donation Camp

On the 23rd march, 2018, we the "Association of Civil Engineering Students" organized a successful Blood Donation Camp in our Campus. Blood Donation is an important and foremost sense of duty of every human being which saves the life of many humans who needs it in urgent situation.

• The team who supports us for Blood donation camp was came from Jankalyan Blood Bank Mahad. During Blood Donation all ACES volunteers and college staff supported very well throughout the whole activity.

• Mr. Mhaskar from Jankalyan Blood Bank supported through out the whole camp take place in college with reference to our respected Principal Dr. N.Y.Patil to promote and encourage to all students for Blood Donation.

The Camp was started exactly at 10.00 am and was continued until the 2.00 pm. All the students as well as outsiders gave an excellent response for the Blood Donation Camp. It was pleasure to work for such an activity to all of us on that day and the Camp was successfully accomplished with everyone's support.

It is a proud feeling after completing this blood donation camp. As our college is in rural area & grooming day by day, we are planning more eagerly for such kinds of events.

• Association of Civil Engineering Students conducted a BLOOD DONATION camp in the campus in association with the Jankalyan Blood Bank on 23 of March, 2018. The current 3rd years students planned and organized this event and to their surprise the response was huge. Many students voluntarily came up to donate the blood. The organizers of this pragmatic event were Sidhant Desai, shreenath bhosale, Sawroop Rajpurkarto name a few.

In the camp the hemoglobin content of the students were checked before donating the blood clearly telling the students about their health condition. Many checkups for blood pressure and other tests were conducted by the doctors. .

Our Principal Dr. N.Y.Patil, dean of academics Mr.V.Shelake, HOD of Computer and IT Dept, HOD of Applied Science and Humanities Mr.Deshmukh made their gracious presence in the camp which started at 10.30 a.m and went upto 2.00 p.m.

Refreshments were provided to the students who were part of the camp. The Head of Civil Department Mr. Ajeet kumar took immense care to meet the requirements of students after donating the blood, so as to avoid any mishaps in the campus. Today accidents have increased and blood is very much in need for each and every hospital. we students don't feel so much responsible to go to blood banks and donate the blood, therefore conducting such events in college would surely make us aware of our health as well as the need of blood in this world. The huge words and quotes on the posters had an impact on the students and made us to donate the blood. This time the camp is organized in a very disciplined manner checking each and every aspect of our health. Would like to see such camps and many other such events happen in our college."

Objectives of Program:

1. To Guide students of HSC about different career options
2. To inform students regarding various Entrance Test and Scholarship schema by Gov of India

Department of Computer Engineering, organized a career counseling session for students class 12th on in the Seminar Hall.. Career decisions play a pivotal role in shaping the future growth and development of students. In today's environment of multiple options, knowing about choices available helps children in their decision-making process. The session commenced with Department head, Prof. Kunekar P.R. reiterating the importance of knowing one's potential and subject of interest before making a decision. He also laid stress on the right combination of subjects as per their aptitude which should be reflected in their academic performance. The session aimed at making the audience aware of the multiple career options available. He also shared information regarding leading universities and various courses available. He urged the students not to make decisions based on family expectations and peer pressure. He guided the

Students to identify their interests and what they are good at. He also advised them to plan multiple activities during their vacations to hone their skills. The session was informative and enriching for students as well as parents.

The main objective was to give training to the students on different aspects of interview i.e. resume building, presentation skills, different interview techniques. The training was given by **Mr. Vijay Deshpande, CEO and Founder of 'People Sciences'**.

Deshpande Sir introduced by Tanveer Rawoot

The Program started with welcome address by Mr.Tanveer Rawoot (BE Mechanical) and was followed by felicitation of the trainer by the **Principal Dr. D.N.Jaiswal**. Tanveer gave concept note of the program and requested Deshpande Sir for the first session of training.

At the beginning, Deshpande Sir asked some students for introduction and took overview of the present skills of students and later asked the participants about their expectation from the training session. He taught the students how to give general introduction, what is the difference between right answer and correct answer, how to be specific in interview. He discussed about the importance of attitude and behavior in interview as well as in life.

Sir explained in detail about how to tackle if we don't know answer in interview. he guided the students how to keep oneself in present. We must believe in our strength and should not waste time around weaknesses. Next to it, Trainer clears the doubt about salary expectation, dressing sense, gesture, and posture. Further in session, he talked on body language, concentration, how to give seminar. finally Deshpande Sir gave tips to students how to crack the interview.

Students carefully listening to Deshpande Sir during first session

We should transform our negative self-talk to positive self-talk. One should understand others and is important to get the success. He suggested the audience to read "The Miracle Morning" by Hal Elrod.

Audience also got valuable guidance on confidence, knowledge, values and NLP technique. Confidence can be increased by achieving small successes. Self-respect, believing in god as well as in our self is essential to have a good confidence level. For knowledge reading is must. He also emphasized on “Compound effect”, “Live in today” and “Big thinking” in life.

In the final segment, Sayyed Sir guided the last year students from employment point of view and pointed out the importance of Entrepreneurship in present era. For entrepreneurship, it is enough to have unique concept or idea. Remaining things can be hired or purchased easily. He discussed about how to prepare for the companies and interviews. Overall, it was very effective and energetic session for students and faculties of Mechanical Engineering department.

The programme started on 11.00 am and concluded on 2.00 pm with vote of thanks by an event coordinator, Prof. Siddhesh Kamat. He thanked the speaker for the valuable guidance to the students. He expressed gratitude to all for their contributions. Total 74 students from Mechanical department were present for this value added seminar.

Training Program

On

“Interview Process”

By

Mr. Vijay Deshpande

(CEO and Founder of ‘People Sciences’)

Interview proves important because it connects both the employers as well as job seekers. It assists employers in selecting a right person for a right job. All candidates may have equally impressive qualifications however it is the candidate who knows what to say and how to say it in the interview will win the job. The ability to do this successfully can be learned through interview skill training. Interview skills training will teach you how to communicate in the interview, how to sell yourself and how to convince the interviewer that you are the best person for the job. Keeping this in mind, a **Training Program on Interview Process** was organized by **Training and Placement cell of Mechanical Engineering Department** for **B.E.Mechanical Engineering students** in two session. The first session was held on 29th March 2019 (3.30pm to 8.30pm) in seminar hall of G.M. Vedak Institute of Technology, Tala for the first batch of students from the class. The second session was held on 30th March 2019 (12.00pm to 5.00pm) in conference room for remaining students. The main objective of the Program was to give training to the students on different aspects of interview i.e. resume building, presentation skills, different interview techniques. The training was given by **Mr. Vijay Deshpande, CEO and Founder of ‘People Sciences’**.

Deshpande Sir welcomed by Principal Sir and Mechanical faculties

The Program started with welcome address by **Prof. Minendra Surve** and was followed by felicitation of the trainer by the **Principal Dr. D.N.Jaiswal**. Prof.Surve gave concept note of the program and requested Deshpande Sir for the first session of training.

At the beginning, Deshpande Sir asked some students for introduction and took overview of the present skills of students and later asked the participants about their expectation from the training session. Deshpande Sir started with the difference between Resume, Curriculum Vitae and Biodata. He taught the students how to give general introduction, what is the difference between right answer and correct answer, how to be specific in interview. He discussed about the importance of attitude and behavior in interview as well as in life. Student got actual training and tips on great handshakes. Students were called upon stage in pair for practicing self-introduction, hand shake assuming they are interviewer and candidate. Mistakes were identified and repaired by the trainer at that moment.

In the next segment, one of the participants asked about how to identify strength and weakness. Sir explained in detail about the same and advised to read “Know your strength” by GALLUP. Everybody has unique strength. We must believe in our strength and should not waste time around weaknesses. Next to it, Trainer clears the doubt about salary expectation, dressing sense, gesture, and posture.

BE Mechanical Students along with Trainer and faculties

In the final segment of first session, Deshpande Sir asked the students to present any topic and recorded the same. Then video recording was played, examined and detailed analysis of body language, quality of voice, confidence level was offered to many participants. It was the most important and thrilled part of the training for all. After training on presentation skills, Deshpande Sir verified whether all the expectation of the students fulfilled or not. At the end of session, participants thanked the trainer for teaching very essential life skills.

On the next day, session started at 12.00pm and was again full of interview techniques as in first session. Participants cleared all their doubts regarding interview. The session was followed by participants feedback. The session ended with a vote of thanks by **event coordinator Prof. Siddhesh Kamat**. He thanked the trainer for giving the valuable guidance and training to the students. He expressed gratitude to all for their contributions. Total 44 students from BE Mechanical class attended the program.
