INTERNAL COMPLAINTS COMMITTEE (ICC)

In response to the **Vishaka Judgment** passed by the Supreme Court in 1997, the University of Mumbai set up the 'University Women Development Cell (UWDC)' in 2001 with the key purpose of making the University a gender-sensitive space. The University also directed all its affiliated colleges to set up a 'Women Development Cell' at college level.

In compliance of this directive of the University, the Women Development Cell of G. M. Vedak Institute of Technology (GMVIT), was set up in the year 2017 under the chairmanship of Ms. (Prof.) Kadambari Ritesh Metha. It is an active committee comprising of staff members and students of GMVIT, and functions with an aim to prevent sexual harassment, promote well-being of all the female students and staff members and create a gender sensitized community within campus as well as in the society.

According to the Supreme Court of India, the following constitutes sexual harassment:

- Physical contact and advances
- A demand or request for sexual favors
- Sexually colored remarks
- Showing pornography
- Any other unwelcome physical, verbal, or non-verbal conduct of sexual nature.

Report on Gender equality & empowerment of women

Program Name : Gender equality & empowerment of women
Organized by : Women development cell
Venue : G. M. Vedak Institute of Technology, Tala.
Dated on : 30th April 2019

Gender Equality is one of the severe issues in our current modern society. It refers to the equality of responsibilities, rights, and opportunities for females and males. Women, as well as girls, still fall behind the men and boys on the fundamental aspects globally.

It is essential to maintain gender equality for global development as well. Till now, women are still incapable of contributing effectively, and in fact, they don't recognize their complete potential.

Gender Equality and its importance:

Although our spiritual beliefs consider females as a deity, we fail to identify her as a human first. Women still understated in the positions of decision-making in different companies. Several studies show that there are below 1/3rd women in the world that occupy the ranks of senior management.

By offering gender equality in areas of health services, education, job, and involvement in administrative and monetary decision-making practices will ultimately benefit in attaining the economic sustainability overall. Numerous global organizations emphasize the significance of gender equality as a motivation for resolving several demographic, economic, and other issues.

Conclusion:

Now, positive growth can be seen in the region of gender equality (comprising the equal right to girls and boys for primary education). But, still, there are some parts of the world in which the girls and women are continuing to suffer from violence and discrimination. There is a definite necessity to make our legal and regulatory framework stronger for fighting the deep-embedded practice of gender inequality. We hope the entire world recognizes the efforts of men and women equally soon in our modern society.

This program is organised at Tala taluka main market area and Tala ST Bus stop by G. M. Vedak Institute of Technology, Tala. under the Women development cell to create the awareness about the gender equality and women empowerment.

It was successfully conducted under the guidance of the college principal, Dr. D. N. Jaiswal sir.
